Part III REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: The prior art of record does not teach, disclose, or suggest the claimed limitations of (in combination with all other limitations in the claim), an image forming apparatus comprising plural image forming means each having an image carrier for forming an image; correcting means for correcting a position difference between images formed by the image forming means in accordance with a detection result by mark detecting means, and controlling means for independently controlling an image forming operation of each of the image forming means to cause image density settings of plural registration correction marks to be formed by the plural image forming means to differ from each other so that each of the registration correction marks formed by the plural image forming means has a different predetermined image density as claimed in claim 1. Similar features are claimed in claim 11. Therefore, claim 11 is allowable over the prior art of record for the same reasons.
